The BLANCO stability package:
A First-class finish for a long service life.

In the catering industry, there is often a lot of running back and forth. To prevent things from getting mixed up, we recommend the **servicing and clean-up trolleys from BLANCO**. They have a high-quality finish and, with a maximum **stability and carrying capacity**, also guarantee the maneuverability required during peak periods.

The servicing and clean-up trolleys are available in all sizes, as well as with 2, 3, 4 or 5 shelves for large capacities. Whether it's transport, temporary or long-term storage – BLANCO offers the ideal model for **any requirements**.

high-quality

BLANCO SW 10x6-2
Serving trolley with synthetic castors

Short-term delivery, long-term use. Serving and clean-up trolleys from BLANCO.

The BLANCO serving and clean-up trolleys are manufactured from high-quality stainless steel and are a lifetime investment. Excellent materials and high production standards ensure quality that sets standards.

Thanks to the deep-drawn profile edge, you can be sure that nothing slips over the shelf's rim. Many convenient details, various castor designs combined with practical accessories round off this top product line.

Put your trust in this unique product line to create the best solution for all your needs.

By the way: Although otherwise it's only possible to order large quantities and long waiting times are to be expected, outstanding service awaits you at BLANCO.

The most popular models from the BLANCO range of serving and cleaning-up trolleys are readily **available from stock** and therefore are obtainable for use in a short span of time.

Typically BLANCO: More quality. More service. More options.

PRODUCT OVERVIEW

Serving trolleys 4
Clean-up trolleys 6
Accessories 7

Integrated noise dampers

Quiet! A noise-insulation mat is mounted on the underside of each shelf and this greatly reduces that annoying rolling noise.

Shelves with a profile edge

All shelves are produced with an all-round raised profile edge. This prevents anything from slipping over the edge – even when the going gets rough.

Impact protection is standard

All serving and clean-up trolleys are equipped with a strong impact protection. They protect the trolley and inventory against damage.

Curled edges

The curled edges make the shelf stable and ensure an extremely high load-bearing capacity. In addition, they also protect the personnel from injuries.

More stability

A first-rate finishing! One-piece welded seams connect the tube frame to the shelves thus increasing the stability of the trolley.

Even more stability

Gusset plates are available on request. They increase the stability of the serving and clean-up trolleys – ideal under extreme loads.

BLANCO SERVING TROLLEYS

SW 6x4 and SW 8x5

Model	SW 6x4-2	SW 6x4-3
Designation	Serving trolley	Serving trolley

Top quality à la maison.

BLANCO is one of the world's leading suppliers of system solutions for domestic kitchens, the catering industry and medical functional areas.

Quality from tradition, economy through innovation.

For over 80 years, our company has been proving its great skill – especially in working with stainless steel and high-grade synthetics.

Each year, BLANCO CATERING SYSTEMS sets new standards for the catering industry with its well thought-out product developments.

The result: sensible solutions for efficient and quality-conscious kitchen and catering management.

At BLANCO, you take center stage.

All of BLANCO's divisions have DIN EN ISO 9001:2000 certification, guaranteeing a high standard of reliability and customer orientation.

Our team will be happy to advise you:
